LIVING OPTIONS

La Casa Assisted Living Community is the ideal place to write the next chapter of your life. Our warm and friendly assisted living community offers the programs and support you need to live as independently as possible – discover how fulfilling life can be at La Casa Assisted Living Community.

Every resident's experience begins with a personalized care plan that will guide our care team.

Whether you are mostly independent or need assistance with the activities of daily living, you can be sure our staff members will be there to provide the right level of support any time it's needed.

RESPIRE CARE

Respite care provides temporary relief for a family caregiver, enabling them to take a much-needed break from the demands of caregiving of an aging family member.

Respite care is provided at our community for a minimum of two weeks and eases the burden of family caregiving by relieving stress, restoring energy, and promoting balance. It can also prevent the family caregiver from becoming exhausted, isolated, or even burned out.

Respite care can benefit the aging family member by providing them with variety, stimulation, and a welcome change of routine.

If you are overwhelmed by the daily grind of family caregiving or need time off to take a vacation, we can provide the much needed respite care.
